Co-funded by the European Union

Erasmus+ KA220 Cooperation Partnerships in Higher Education
Increasing the Visibility and Knowledge Base on Air Quality With Big Data and Its Impact on the Population Health
(VISIONAIR) 2023-1-SK01-KA220-HED-000158470

Training Activity 3.5

University of Chemistry and Technology Prague
Technická 5, 166 28 Prague 6 – Dejvice, Czech Republic

Time	Topic	Responsible
3 December 2024 (Tuesday)		
9:00 - 9:30	Registration and welcome	UCT
9:30 - 10:30	Current status of project implementation: WP3 "Identification of health impacts due to air pollution" schedule and tasks	Jakub Berčík
10:30 - 11:00	*Coffee break*	
11:00 - 12:30	Big data processing of air pollution data: statistical verification of the relationship between respiratory diseases and air pollution level, discussion	Anna Mravcová Johana Paluchová
12:30 - 13:30	*Lunch*	
13:30 - 15:00	Activities related to education in the field of big data processing	Filip Tkáč Jana Gálová
15:00 - 15:30	*Coffee break*	
15:30 - 17:00	Distribution of tasks within WP3, discussion	All partners
4 December 2024 (Wednesday)		
9:00 - 17:00	Visit to Karlovy Vary – practical study on air quality	All partners
18:00 - 21:00	*Social dinner*	
5 December 2024 (Thursday)		
9:00 - 10:30	Practical presentation of data collection within WP3	All partners
10:30 - 11:00	*Coffee break*	
11:00 - 12:30	Practical study and discussion about workshops, activities related to the use of innovative approaches and modern methods	All partners
12:30 - 13:30	*Lunch*	
13:30 - 15:00	Training on data processing from project measuring stations	All partners
15:00 - 15:30	*Coffee break*	
15:30 - 17:00	Conclusions	All partners
